Client Testimonials

"Russell takes great pride in his work. Our administration had him recondition a YAG laser at one of our satellite locations. Russell not only restored the laser head to new condition, but **personally made sure that I was happy** with its performance."

Neil B. Griffin, M.D.
Carolina Eye Associates, P.A., Southern Pines, NC

"Russell Miller is an outstanding, **meticulous engineer that knows his business** and does a great job."

Bobby Maddox, M.D.
Maddox Laser Vision Center, El Paso, TX

"For over a year MobilEyes has been servicing our VISX and other office lasers. **Russell has reduced the overall cost of maintaining our lasers** while improving the equipment's performance for our Doctors. **His dedication to the task and loyalty to our staff is priceless.**"

Harvey Hoopes, Controller, Eye America, Wilmington, NC

www.mobil-eyes.com

"Russell's primary concern is that **the laser is in perfect working condition**. Russell is truly concerned with the procedure and that **patients get the best vision possible**. Russell is very meticulous and demanding when it comes to the technical parameters of the lasers he services as well as rents."

Michael G. Woodcock, M.D.
Cape Fear Eye Associates, Fayetteville, NC

"Since MobilEyes began working with our group over 3 years ago, we have realized improved patient outcomes. It's clear that Russell cares about our patients and our business, **we consider him an extension of our staff**. And our patients take great comfort with the assurance of a skilled laser engineer present on surgery days to keep **the system running at peak performance.**"

Robert Gale Martin, M.D.
Carolina Eye Associates, P.A., Southern Pines, NC

About MobilEyes

Through years of dedication to the medical profession, **MobilEyes has grown to become one of the leading independent providers of laser services in the United States.**

Russell Miller, owner and founder of MobilEyes, Inc., graduated with a bachelor's degree in Electrical Engineering from the Rochester Institute of Technology in 1988.

Miller's career spans 20 years of design, development and management in industries from Defense to Environmental to Medical.

From a special assignment on the B-1 Bomber to developing cutting edge equipment such as the MDA Scientific INFRASAFE optical gas monitor, **Russell's passion for problem solving and his ability to persevere through technical analysis and troubleshooting has served him and his clients well.**

Laser Repair

MobilEyes provides onsite laser repair and maintenance to hospitals, clinics and physician offices across the United States, Canada and Mexico. MobilEyes is a trusted alternative to the costly service contracts and post-warranty repairs offered by laser manufacturers. If you have a laser, chances are MobilEyes can repair or maintain it for less than you are currently spending.

Contact us today and you'll agree, the MobilEyes advantage is plain to S-E-E

Safety: Nothing is more important than safety. A good safety record doesn't just happen. At MobilEyes, we are committed to continuous safety training, maintaining a keen focus on safety practices and of course demonstrating a strong service competency in supporting a wide range of laser systems. Whether it's preventative maintenance or repairs, you can be confident that MobilEyes provides the highest level of skill in caring for your medical equipment and protecting the well-being of your patients and staff.

Expertise: Skill and knowledge on how to properly service a laser system is vital. An improperly serviced laser can significantly affect the outcome of medical procedures. At MobilEyes, we are uniquely experienced in working on all the leading laser manufacturers including Coherent, Lasersight, Nidek, Summit, Sunrise and VISX. We have serviced lasers for over 12 years, and are one of few both trained and certified by the major laser manufactures. Our service work meets and exceeds their strict standards.

Economy: The medical industry is facing increased financial pressures. So we've designed our repair and maintenance services with this in mind. Instead of a one-size-fits-all contract, we start out by learning about your practice and designing an agreement that works for your unique business model. Our overhead is low which translates into savings and flexibility for you and your customers.

Technical Support & Consulting

Purchasing or leasing a laser system is no simple task. The complexity of medical laser technology introduces significant challenges for doctors and managers making decisions on the appropriate solution for their clinic or hospital. The situation is compounded by continuously evolving laser technology and the varying messages delivered from the large number of medical equipment vendors.

MobilEyes has literally worked on hundred of laser systems by all the major manufacturers. We understand the subtle differences between these systems. We know what has worked and what hasn't worked for different applications. From older systems to the latest laser technologies, MobilEyes can help simplify the technology tangle so you can determine the best laser system for your practice.

So before you commit to making one of your largest purchases, **contact MobilEyes to discuss how we can help guide you through the process** from needs analysis, purchasing and installation to training, maintenance and marketing.

MobilEyes technical support and consulting services include:

- ❖ Mobilization and rental of laser systems
- ❖ Laser system performance evaluations
- ❖ Equipment purchasing assistance
- ❖ OEM and after-market parts replacement
- ❖ System installation and setup
- ❖ Practice management assistance
